

Anitech Testimonial

Anitech is one of Australia's leading suppliers of large format printing equipment and consumables offering a comprehensive range of equipment that includes printers, cutters and scanners, along with workflow software solutions. Anitech also offers a wide spectrum of Media, Ink, Consumables and Toner to produce the best quality and the highest levels of detail in all output. All of our products are backed by an experienced technical services team.

We recently undertook a project to develop an integrated management system that included third party certification for the following standards:

- ISO 9001 quality management
- ISO 14001 environmental management
- AS 4801 health and safety management

We contacted David Poynter from Virtual Forms to develop an online management system that allowed the capture of all required information and documentation into a web portal. This has proved very useful as the employees find it easy to use and we have very good control of our documents and records.

In July we passed our audit by SAI Global and the auditors were very impressed by our online management system.

David was very responsive to our needs and gave us great service. I have no problem recommending Virtual Forms to anyone requiring a web based management systems.

Yours sincerely

Tony Troth
General Manager
